DESIGN CENTER

At Medallion Home we strive to ensure you have a great experience through the entire process of building your home. Once you have selected your community, lot, elevation and floorplan, we will schedule an appointment for you to visit our new home Design Center.

Our design consultants will walk you through the process, making it easy to see your dreams come to life. We start with the exterior selections, then move to the interior colors, finishes and flooring, making your selections room by room.

We suggest that you visit our models to get ideas on tile, cabinetry, countertops, appliances, roof color/style, interior and exterior paint colors, just to name a few. If you have found a certain look that you would like to replicate, bring along the magazine or printout, as well as photos of current furniture, fabrics or other items you may incorporate into your new home.

We have longstanding ties to the community, and support local businesses, organizations and charities.

GOOD REFERENCES.

Our buyers refer us to their friends and family. Nothing beats word-of-mouth!

We have team members on staff that other builders don't have, such as a drafting department and a structural manager. As you give us a window into your personal style, our team of experts listens carefully and turns your vision into reality. Literally.

YOUR VOICE.

You truly have a say in EVERY aspect of your home, from its structure to design options to materials and colors. If you want to move a wall, remove a bathroom or add a couple of feet, tell us. Our structural manager will handle it. This is your opportunity to create a home as unique as you.

THE DESIGN PROCESS.

Our design consultants walk you through every inch of your floorplan. We'll incorporate any changes into your new home. We want to create the home you want as we understand that it is the details that make a house a home.
